Dutch	Very good
French	Good

Skills

Frontend development

Angular	expert
TypeScript	expert
HTML	expert
CSS	expert
JavaScript	expert
React	learning

Backend development

SQL	expert
Node.js	senior
.Net	medior
Java	medior
Go	learning
Rust	learning

DevOps & Cloud

Docker	medior
Azure	junior
AWS	junior

Tools & Methodologies

Git	expert
Agile	expert
Jira	senior
VS Code	senior
Neovim	medior

Systems & infrastructure

Linux	expert
Windows	expert
Nginx	medior
Networking	medior

Work Experience

Senior Software Developer – Aytacworld *Jul 2017 - Present*

Founded Aytacworld to help clients deliver their software projects effectively. Develop applications and web portals, and manage servers and infrastructure. Explore emerging technologies, including AI, to continuously expand my technical expertise.

Angular, React, Node.js, DevOps, Automation, AI, Neovim, Docker

Senior Angular Developer – Fod IBZ *May 2023 - Aug 2026*

Developed the frontend for the Single Permit Project using Angular and contributed to the implementation of an internal design system.

Angular, Agile, VS Code, DevBox, Azure, DevOps, Figma

Senior Software Developer – Immoscoop *Oct 2021 - May 2023*

Integrated Immoscoop's software with client systems by developing client-specific adapters. Contributed to the migration to Jira and coached junior and medior colleagues remotely.

Node.js, Puppeteer, AWS, Jira, REST APIs, Neovim, Apify, Cheerio

Angular Developer – Energie.be *May 2021 - Oct 2021*

Developed the frontend of Energie.be and integrated with the CMS. Implemented CSS animations to add visual character to the website.

Angular, Agile, Figma, Strapi CMS, Animations

Frontend Developer - Flow Pilots / ACA *Oct 2020 - May 2023*

Developed frontend applications for internal and client projects. Contributed to project initiation, requirements analysis and internal technical knowledge-sharing sessions.

Angular, Agile, .NET, ItsMe, Bootstrap, PrimeNG

Software Developer - KBC Bank & Verz. *Jan 2018 - May 2020*

Worked in the Surfstudio R&D department, developing applications from proof of concept to production. Explored blockchain, chatbots, machine learning and Google Home/Alexa integrations. Also developed portal applications for the Investment department and coached other developers.

Angular, Agile, Java, Spring Boot, Maven, Chatbots, Alexa, Google Assistant

Frontend Developer – Immoweb *Jul 2017 - Dec 2017*

Developed web applications as part of Immoweb's R&D team, including tools to simplify property creation and a WYSIWYG page editor that enabled partner agencies to build their own pages.

Angular, Agile, Java

Mobile/Web Developer - CTG Europe *Mar 2015 - Jul 2017*

Developed mobile and web applications for internal and client projects. Participated in project initiation, requirements analysis and technical knowledge-sharing sessions.

Angular, .NET, React, Ionic

Frontend Developer – BridgeStone *Jul 2016 - Jul 2017*

Developed an application for tyre service locations across Europe to record measurements and manage tyre pressure, pricing and fleet information.

Angular, Agile

Frontend Developer/Analyst - BNP Paribas Fortis [Sep 2015 - Jun 2016](#)

Developed portal applications to help customers book appointments for investment services. Improved development processes, organized weekly knowledge-sharing sessions and coached junior developers.

[JavaScript](#), [Agile](#), [jQuery](#), [GulpJs](#), [Batch scripting](#), [Selligent Tools](#), [Internal library](#)

Frontend Developer – Essenscia [Apr 2015 - Jun 2015](#)

Developed a web application for reporting discarded hazardous gas cylinders or tanks, enabling Essenscia to notify the appropriate service for collection.

[Angular](#), [JavaScript](#), [SCSS](#)

Fullstack Developer - Sherpa.be / TicketMaster [Aug 2012 - Mar 2015](#)

Contributed to the migration of a legacy application and developed an event-ticketing portal with venue seat creation and selection tools for customers and organizers. Also created an internal single-page application (SPA) framework.

[.NET](#), [ASP.NET](#), [jQuery](#), [Knockout.js](#), [MSSQL](#), [EntityFramework](#), [TFS](#), [Visual Studio](#)

Education

CTG Europe [2015](#)

Mobile/Web Master Class

Odisee (HUB-EHSAL) [2012](#)
